Fernando Nieto (Barcelona, 1978) is an architect, researcher and lecturer. He works at Group X at Aalto University Department of Architecture as a postdoctoral researcher and teacher of design studio courses. He holds a PhD in Advanced Architectural Design from the Technical University of Madrid (ETSAM UPM, 2014, Summa Cum Laude, International Mention), a Master of Advanced Studies in Collective Housing (ETSAM UPM, 2006) and a Master of Architecture from the University of Valladolid (ETSAV UVA, 2004).

He has gained various research grants such as the postgraduate scholarship from "la Caixa" Foundation or the Swiss Government Excellence Scholarship for Foreign Scholars and Artists to do research at ETH Zurich (2013-14). His research interests are related to design methodologies in Architecture and the search for new relations with other disciplines within the artistic, research and editorial practices.

He holds a professional practice for more than a decade. His work as an architect, alone and in collaboration with other architects, has won several awards and mentions, highlighting the j5 Competition for Young Architects in Andalusia, the Municipal Civic Centre in Boecillo (Valladolid), the CSCAE Experience/Future Competition, the VIII Architectural Awards of Castilla y León, the V Enor Architectural Awards or the NAN Awards for Architecture and Construction. His work has been exhibited at the IV Conference of Architects of Spain in Valencia or the Museum of Spanish Contemporary Art Patio Herreriano in Valladolid. He is a member of the Professional Association of Architects of Madrid (COAM) and the Finnish Association of Architects (SAFA), and COAM correspondent in Finland.

He is co-founder and co-editor-in-chief at HipoTesis Platform. His work as an editor has been awarded in the VIII Latin American Biennial of Architecture and Urban Planning (BIAU, 2012), the XIII Spanish Biennial of Architecture and Urbanism (BEAU, 2016) and the FAD Awards of Thought and Critique (*ex aequo*, 2016).
